

Dr B's Psychological Lineage

Dr B's Psychological Lineage

- Greg Bohémier

Ph.D. 1995, Binghamton University

Dissertation: Neighborhood effects and the role of the neighborhood rhyme.

Major Professor: Albrecht Inhoff

- Albrecht Inhoff

Ph.D. 1983, University of Massachusetts

Dissertation: "Reading eye-hand coordination, oculomotor control."

Major Professor: Keith Raynor

- Keith Raynor

Ph.D. 1974, Cornell University

Dissertation: "The perceptual span and peripheral cues in reading."

Major Professor: George McConkie

Dr B' Psychological Lineage

- George McConkie

Ph.D. 1964, Stanford University

Dissertation: "Response hierarchy changes resulting from learning additional associations."

Major Professor: Gordon Bower

- Gordon H. Bower

Ph.D. 1959, Yale University

Dissertation: "How reinforcement could train rats to scamper down a runway at just the right speed to maximize their reward and minimize the delay in getting it."

Major Professors: (1) Neal Miller [Branch One]

and (2) Frank Logan [Branch Two]

Dr B's Psychological Lineage

- Neal Miller (1909-2002) [Branch One]

Ph.D. 1935, Yale University,

Dissertation: "The influence of past experience upon the transfer of subsequent training."

Major Professor: Walter Miles

- Walter Miles

Ph.D. 1913, University of Iowa

Dissertation: "The accuracy of the voice in simple pitch singing."

Major Professor: Carl Emil Seashore

- Carl Emil Seashore

Ph.D. 1895, Yale University

Dissertation: "Measurements of Illusions and Hallucinations in Normal Life"

Major Professor: Edward Scripture, Ph.D.

Dr B's Psychological Lineage:

- Edward Wheeler Scripture

Ph.D. 1891, Leipzig, Germany

Major Professor: Wilhelm Wundt (who organized what is considered to be the first psychology laboratory)

End of Branch One.

Dr B's Psychological Lineage:

- Frank Logan [Branch Two]

Ph.D. 1951, University of Iowa

Dissertation: "Behavior theory and social science."

Major Professor: Kenneth Spence

- Kenneth Wartenbe Spence

Ph.D. 1933, Yale University

Dissertation: "Visual acuity in the chimpanzee"

Major Professor: Robert Yerkes

- Robert Mearns Yerkes

Ph.D. 1902, Harvard University

Dissertation: "The sensory reaction and physiology of the nervous system of the jellyfish."

Major Professor: Hugo Munsterberg

Dr B's Psychological Lineage:

- Hugo Munsterberg

Ph.D. 1885, Universität Leipzig

Dissertation: "The doctrine of natural adaptation."

Major Professor: Wilhelm Wundt (who organized first psychology laboratory)

End of Branch Two.
